Community Engagement (July Cycle);

Stationary posting along Mitchley Avenue which was done in one of our marked vehicles along a popular ASB hotspot. The area in question is known to be frequented by school children who have been reported by residents to be engaging in anti-social behaviour.

The posting was done during school close out times as a deterrent for those involved in the anti-social behaviour as well as to ensure safety of our residents

Further Policing Areas To Look Into On Our Ward...

Potential speeding ASB areas marked up for an upcoming coordinated speed gun operation along with our two neighbouring Addington wards in selsdon and Forestdale.

Areas marked up on our Sanderstead ward include Norfolk Avenue and Briton hill road where we have received Intel of vehicles speeding along these 20mph residential zones. This has largely been reported to be taking place during school drop off and pick up times.

The Opp could also be an opportunity for us to look into and curb other policing issues such as the vehicle thefts in the area as well as tackling general crime in and around the Sanderstead ward.

We have received a few dangerous dog reports along Limpsfield road which we are actively looking into as well as the necessary action(s) to take these off our ward and deal with the owners respectfully.
